

*Tactical 4F braid cable  
Tactical Cables*

**General Information**

Repeated deployment and retrieval of cable in indoor and outdoor environments including rough terrain where sporadic vehicular traffic and pedestrian activity are expected.

**Military tactical applications**

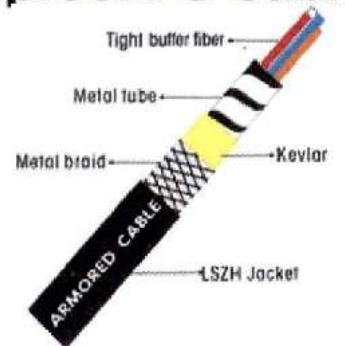

Commercial application such as video coverage of news events and other temporary installations where high bandwidth information needs to be transmitted. In industrial environment where chemical resistance of the cable is a requirement.

**4cores Armored Tactical Waterproof FO Cable**

**1. Sketch:**

-  PU Outer Jacket
-  PBT tube with jelly
-  2.2mm~2.8mm Metal Tube
-  Metal Braid
-  25+ Dupont Kevlar
-  0.25mm bare fiber

## Technical Specification

MM -62.5 MIC -4 FIBER

250um bare fiber

PBT -WATER BLOCK

Jelly fill

METAL TUBE -ANTI ROUDENT

Round metal tube with gap

METAL BRAID

Stain steel metal braid within

KEVLAR

Dupont Kevlar X25 Root
